

SOLUTIONS BRIEF: KEYWORDS AUDIO LOCALIZATION SERVICES IN BRAZIL

DELIVER QUALITY AUDIO CONTENT TO LOCAL PLAYERS

At Keywords Studios, we realise that your players expect the highest standards when it comes to your game's audio content.

We also understand that challenges such as technical defects, poor casting, inferior sound and below-par direction and performances can be the difference between your game being a commercial success or not.

Keywords Audio Localization services can support you with international production through our network of local facilities with fully owned, state-of-the-art studios in key strategic territories.

Helping you achieve your Audio Localization goals

Keywords Studios in Brazil offers the largest physical structure dedicated to video games localization in the country. Our specialist teams have a proven track record working with some of the leading publishers and developers in the industry, including EA, Bungie, Square Enix and Epic Games.

We have developed customised proprietary tools and solutions to suit any localization needs and can provide you with end-to-end audio localization solutions – from pre-production to post, mixing and QA.

With our six recording rooms, including a 20m2 booth and 5.1 mixing space, located in Sao Paulo, we can accommodate several projects simultaneously, providing you with flexibility for your project lead times.
